In the third edition of this international best seller, Lawrence Cunningham brings you the latest wisdom from Warren Buffett's annual letters to Berkshire Hathaway shareholders. New material addresses: the financial crisis and its continuing implications for investors, managers and society; the housing bubble at the bottom of that crisis; the debt and derivatives excesses that fueled the crisis and how to deal with them; controlling risk and protecting reputation in corporate governance; Berkshire's acquisition and

operation of Burlington Northern Santa Fe; the role of oversight in heavily regulated industries; investment possibilities today; and weaknesses of popular option valuation models. Some other material has been rearranged to deepen the themes and lessons that the collection has always produced: Buffett's "owner-related business principles" are in the prologue as a separate subject and valuation and accounting topics are spread over four instead of two sections and reordered to sharpen their payoff. survey of the extraordinary experiments in the arts that took place in the former Yugoslavia from the country's founding in 1918 to its breakup in 1991. The combination of Austro-Hungarian, French, German, Italian, and Turkish influences gave Yugoslavia's avant-gardes a distinct character unlike those of other Eastern and Central European avant-gardes. Censorship and suppression kept much of the work far from the eyes and ears of the Yugoslav people, while language barriers and the inaccessibility of archives caused it to remain largely unknown to Western scholars. Even at this late stage in

the scholarly investigation of the avant-garde, few Westerners have heard of the movements Belgrade surrealism, signalism, Yugo-Dada, and zenitism; the groups Alfa, Exat 51, Gorgona, OHO, and Scipion Nasice Sisters Theater; or the magazines Danas, Red Pilot, Tank, Vecnost, and Zvrk. The pieces in this collection offer comparative and interpretive accounts of the avant-gardes in the former Yugoslavian countries of Croatia, Serbia, and Slovenia. The book is divided into four sections: Art and Politics; Literature; Visual Art and Architecture; and Art in Motion (covering theater, dance,

music, film, and video). All of the contributors live in the region and many of them participated in the movements discussed. The book also reprints a selection of the most important manifestos generated by all phases of Yugoslav avant-garde activity.

Juvenile homicide and fatal maltreatment remain serious and pervasive problems in the developed world and especially in the United States, where in 2005 some 1,500 children died from neglect and physical abuse.

Alarming statistics such as this, as well as an upsurge in the media attention paid to all things forensic, underscore the pressing need for the utmost rigor in the scientific investigation of child abuse cases. This well timed volume is a response to the climate of public and press interest in such inquiries, where the forensic aspects of the casework generate an enormous amount of attention. The contributions cover a wide range of topics and explore many of the finer details of investigations into juvenile fatalities suspected of being abuse-related. The chapters reflect both the multi-disciplinary

nature of such investigations, and also the need for law enforcement professionals to take a rounded, holistic approach to the casework involved. The motivational factors that lead many professionals enter this arena of investigation are, of course, personal and individual. However, at the core of their commitment and their work is a shared need for justice, plain and simple. Victim advocacy and protecting the rights of children, both living and deceased, remains a key impetus for those professionals who specialize in child abuse research. At the heart of this book is the aim of providing

both a vital resource for investigators, and a purposeful voice for the young victims of abuse, unable as they are to stand up and speak for themselves.
