Superscooper, later Bombardier 415) is an amphibious aircraft built originally by Canadair and subsequently by Bombardier and Viking Aircraft. It is based on the Canadair CL-215 and is designed specifically

# File Type PDF CI 215 Engine

for aerial firefighting; it can perform various other roles, such as the search and rescue and utility transport.

~~Canadair CL 415 — Wikipedia~~

The original 215 had both

# File Type PDF CI 215 Engine

engines rotating in the same direction rather than counter-rotating engines.

This was to reduce maintenance costs I was told - fewer parts than with two slightly different engines. As a result, there were

# File Type PDF CI 215 Engine

features to counteract the net angular momentum (such as some asymmetry in the empennage).
