Jens Ohlin's Criminal Law is designed to respond to the changing nature of law teaching by offering a shorter, flexible, and more doctrinal approach, with an emphasis on application. Materials are presented, in a visually lively style, via a consistently structured pedagogy within each chapter: Doctrine (treatise-like explanation), Application (cases), and Practice/Policy (questions providing an opportunity for normative critique of the law and exploration of practical and strategic challenges facing criminal lawyers). Theory is integrated into the doctrine section rather than conveyed through law review excerpts, so as to help students make the necessary connections to doctrinal issues. Aggressively-edited cases help keep the length to a minimum, and modern cases will engage younger students and professors. Key Features: New chapter titled "Other Offenses Against the Person," which includes coverage of physical battery, assault, and kidnapping (Chapter 15). Integrated notes throughout the casebook directing students to view a series of 20 short video clips that bring the doctrinal controversies to life in a fictional courtroom. More cases added to represent the plurality of approaches in different jurisdictions. The addition of several "classic" criminal law cases familiar to law school professors. More examples in the "Doctrine" section of each chapter. "Practice and Policy" section in each chapter urges students to consider how the various actors in the process (prosecutors, defense counsel, judges and juries) make particular decisions and the strategic calculations that informed them, and make this casebook more practice-ready than others Innovative pedagogy emphasizes application of law to facts (while still retaining enough flexibility so as to be useful for a variety of professors with different teaching styles)

ISBN 1-58477-498-3. Cloth. \$125. * The standard one-volume treatise based on classic legal-realist principles. This process is explored in its chapters on legality, mens rea, harm, causation, punishment, strict liability, ignorance and mistake, necessity and coercion, mental disease, intoxication and criminal attempt, as well as its general chapters on criminology, criminal theory and penal theory. Acclaimed when its first edition appeared in 1947, it has been cited regularly ever since.
