Now the OPC Foundation has released a new generation of OPC specifications called OPC Unified Architecture (OPC UA). With OPC UA, the OPC Foundation fulfills a technology shift from the retiring COM/DCOM technology to a service-oriented architecture providing data in a platform-independent manner via Web Services or its own optimized TCP-based ...

Optical phase conjugation (OPC) combines in itself aesthetic and pragmatic attractiveness, a synthesis that has made OPC a subject of general attention. The figure presents the approximate rate of publications (number of articles per year) on OPC in the world literature for recent years, the lower curve denoting the work carried out in the USSR.

The new OPC Unified Architecture (OPC UA) unifies the existing standards and brings them to state-of-the-art technology using service-oriented architecture (SOA). Main advantages of the new standard are: Platform-independent technology allows the deployment of OPC UA beyond current OPC applications only running on Windows-based PC systems.

### **Reference 2010 Paperback**

OPC Client / OPC Server Architecture.

An OPC Architecture refers to a communications infrastructure that includes one or more OPC clients and OPC Servers communicating amongst each other. To keep OPC Client/OPC Server architecture diagrams easy to read it is conventional to draw data-flow diagrams with data flowing up from data sources at the bottom to data sinks at the top.
