Has British literature finally surpassed Postmodernism and are we thus currently witnessing the emergence of a new era? Moreover, the analysis aims to demonstrate the renewed importance of modern(ist) strategies and their employment in contemporary British fiction. Case studies of six novels

The theologians of the late German

Enlightenment saw in Kant's Critique of Pure Reason a new rational defence of their Christian faith. In fact, Kant's critical theory of meaning and moral law totally subverted the spirit of that faith. This challenging new study examines the contribution made by the Critique of Pure Reason to this change of meaning. George di Giovanni stresses the revolutionary character of Kant's critical thought but also reveals how this thought was being held hostage to unwarranted metaphysical assumptions that caused much confusion and rendered the First Critique vulnerable to being reabsorbed into modes of thought typical of Enlightenment popular philosophy. Amongst the striking features of this book are nuanced interpretations of Jacobi and Reinhold, a lucid exposition of Fichte's early thought, and a rare, detailed account of Enlightenment popular philosophy.
